Testimonial- Jarek (H.A.N.D)

Buying and selling a house is definitely one of the most stressful things I have ever done. To add to the stress was the fact that we were also moving the equivalent of a 3 bedroom house and 2 offices all in one day! However we made the best decision when we hired Jarek and his team from Have A Nice Day. They were so efficient, it was like watching a military operation and they didn't stop until the job was done.

All our furniture and belongings arrived in our new house safely, ready for us to start arranging straight away.

We would like to say a huge thank you to Jarek, moving would have been 100 times worse without your help!

We have no plans to move any time soon but we will definitely recommend you if we hear of anyone who needs your services.

Thank you

Dear Jarek,

I would like to write to you to tell you what a magnificent job you did to move my home just before Christmas 2011.

You and your team worked hard from morning until night to complete what became a difficult and long day, due to problems with the other house owner.

Whilst having to wait for delays at their end, you never complained, but kept everyone's spirits up with your jokes and humour.

At one point, when the other removal firm had struggled to remove an awkwardly shaped object for 15 minutes you just said "let me have a try" and they could not believe their eyes when you had it out of the door in 30 seconds.

The other firm were still removing their customers' furniture at 3am the following morning. Despite the other owners' problems, you had my furniture in place by 11.30pm, without a single breakage. And even at that time you were still smiling, which is a great testimonial to you.

Thank you for turning what was for some other people a disastrous day, into our Nice Day!

Best wishes.

Caroline
